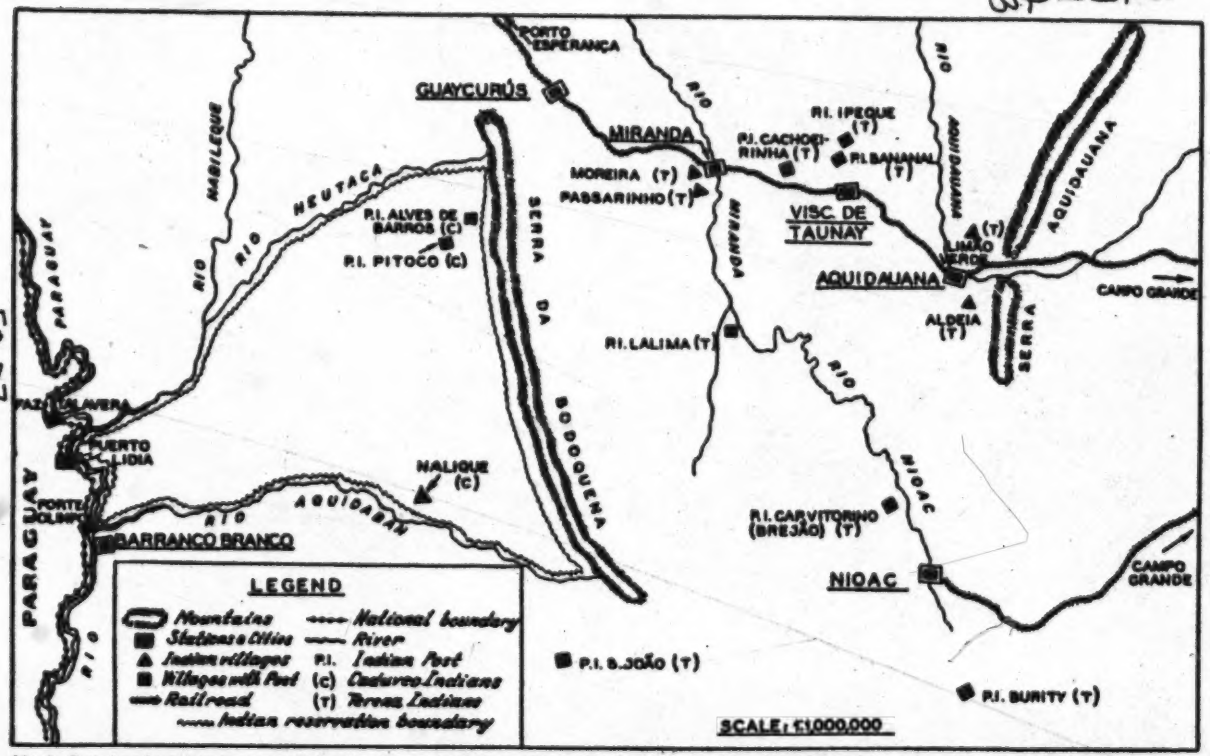

MAP 2.—Part of southern Mato Grosso, showing location of Terena and Caduveo villages. The population of the important Terena villages under the control of Posts in 1948 was as follows: Bananal or Taunay, 900; Cachoeirinha, 600; Ipegue, 304; Cap. Vitorino, 150; Burity, 470 (two-thirds of which are Terena); Lalima, 185 (half of which are Terena); São João, 60 (Terena and Kinikinao mixed). The remainder of the Terena are located in independent villages like Limão Verde, Aldeia, Moreira, Passarinho, and in the penal Posts in São Paulo State. The total Terena population is estimated at 3,000. The population of the three Caduveo villages of Alves de Barros, Pitoco, and Nalique is not constant, owing to the nomadic habits of the Caduveo. The total population is estimated at 150. (For P. I. Ipegue on map, read P. I. Ipegue.)
